Efforts to End It. It was said yesterday that nothing came of the conferences between national officers of the carpenters' and sheet metal workers' unions held on Wednesday at the Victoria Hotel to settle the differences between the carpenters and the shee metal workers as to which trade has the right to set hollow metal doors and trim. The carpenters have the work and they intend to keep it.

As to any effort to settle the general lockout of sheet metal workers by four associations of employers it was said that an effort to bring about a conference on the matter with the employers proved futile.

These attempts to bring about peace were the result of the McNamara confessions. The national heads of the unions want if possible to have all general strikes settled so that the unions can lie low until the excitement over the McNamara cases and any cases of the limit.
